

Needfinding: Exercise

Human Computer Interaction

Luigi De Russis, Alberto Monge Roffarello

Academic Year 2026/2027

Administrativa

- **Assignment 1** is out
 - Due: October 29 EoD
 - It will last four labs: use those for discussing with the teacher of your slot and getting as much as feedback as possible
- Friday's lab (October 2) is for **choosing** your specific domain and **preparing** a draft of the questions

Goal

- Reflect on good vs. bad interviews
- Plan the interview process in a sample domain
 - Start developing the questions
- **Interactive exercise**—contribute, suggest and comment!

Can You Spot the Mistakes?

What Did Work Well?

<https://www.youtube.com/watch?v=eNMTJTnrTQQ>

A Sample Domain

- Theme: Transportation
- Specific domain: Students who use bike sharing to go to the university

Target user(s)

- **Immediate users:** university students
- **Domain experts:** bike technicians, public officials, bike-sharing companies, and professionals who design and maintain urban bike lanes.
- **Lead users:** university students who live far from campus.
- **Extreme users:** students who do not normally use the system but may rely on it in an emergency, car drivers.

Planning an Interview

- To whom?
- **Direct 1:1 Interview** vs. Focus Group vs. Survey
- General Structure
- Questions
 - How many?
 - Which ones?
- Interacting
 - Follow-ups?
- Recording
 - Paper / Audio / Video / Pictures ?

Interview Structure

- Introduction: why are we here? time, about an investigation on..., not testing you, you are helping us, there are no wrong answers, how it works, ask for permission to share/elaborate responses + recordings
- Questions about the topic: some are the same for everyone, some depend on the kind of users. Possible steps:
 - Background/Context
 - Going deep
 - Clarifications/successes and failures
 - Reflections
- Questions about the user: how often they use <transportation mean>? ...
- Thank you, (gift), contact information

Questions (a few examples)

- **Icebreaker and background questions**
 - Could you briefly tell me about your typical university routine?
 - How often do you go to the university?
 - How far do you live from the university? Do you live in the same city?
- **Bike-sharing use**
 - How often do you use bike sharing to travel to the university?
 - Can you walk me through a typical day when you use bike sharing to get to the university?
 - Are there particular periods during the semester when you use bike sharing more or less often? Why?
 - What factors influence your decision to use bike sharing rather than another means of transport?
- **Experience and evaluation**
 - Tell me three positive aspects of using the bike sharing to reach the university
 - ...and three negative aspects.
 - Does your university offer any benefits or incentives for using bike sharing? If so, how do they affect your decision to use it?
 - How would you evaluate the price of the bike-sharing service?
Optional follow-up: On a scale from 1 (“very unreasonable”) to 5 (“very reasonable”), how would you rate it? Why?
